

Ms. Kathleen Gleason is the acting Chief, Defense Logistics Agency Research & Development.

Ms. Gleason leads the R&D program management office with a budget of \$60M/year.

The major programs are the ManTech program, with a focus on improving the industrial base, and the Logistics Technology Demonstration program that addresses internal DLA processes to improve planning and operations.

Her ManTech efforts include initiating the Additive Manufacturing program budget, securing budget increases for the Microelectronics, Batteries, and Casting and Forgings programs, and directing the Combat Rations and Combat Uniforms programs.
