

Dr. Matt Gratias
Vice President of Federal Programs

At Relativity Space, Matt leads government business development for national security and civil space launch services of Terran R, a reusable medium-to-heavy lift rocket. He is also the Head of Business Development at Horizon Manufacturing Technologies, the advanced manufacturing business unit of Relativity.

He has over 25 years of experience at the intersection of the defense sector, technology startups, and research universities. Before joining Relativity, Matt served as Vice President of Federal at Virtualitics, an AI solutions startup providing operational readiness applications to the Department of War.

Prior to Virtualitics, Matt served as Senior Advisor to the Managing Director at the National Security Innovation Network (formerly MD5), a defense innovation program office in the Office of the Undersecretary of Defense for Research and Engineering (OUSD(R&E)).

He holds a Ph.D. in Political Science and International Relations from the University of Southern California. He is a veteran of both the Afghanistan and Iraq wars.
